Instructions: 1

These are the instructions for the game you will play in the first stage. Please read all the slides carefully (14 pages in total).

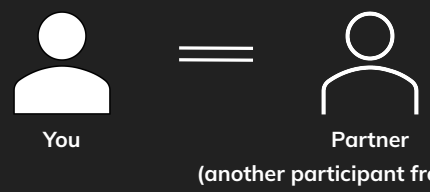
You can go to the next slide or revert to the previous slide by clicking on the arrow-shaped buttons located below.

After the instructions, you will see a demo play of example rounds, followed by short comprehension quizzes and the actual play.

Instructions: 2

In this part, **you will be paired anonymously with another participant** .
Note that your partner is not a computer bot but a Prolific participant engaging in the study simultaneously.

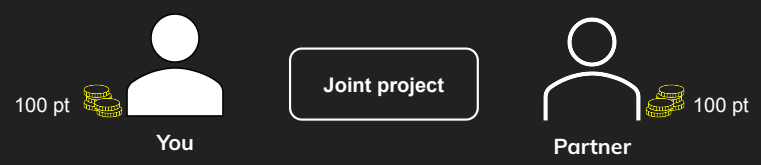
You and your partner will be making decisions that will affect both your bonuses.



Instructions: 3

Initially, you and your partner will be endowed with **100 points (pt)** .
* Points will be exchanged for British Pounds (100 points = £1.5).

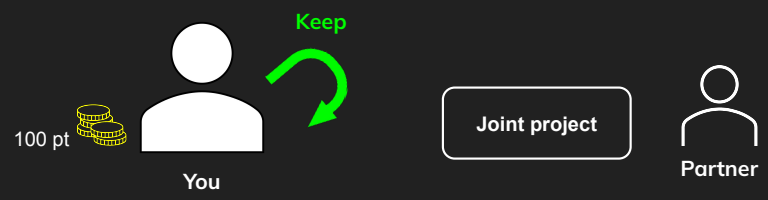
You and your partner can engage in a group project in which you can potentially gain (or lose) your resultant points.



Instructions: 4

Each of you will have **two options**:

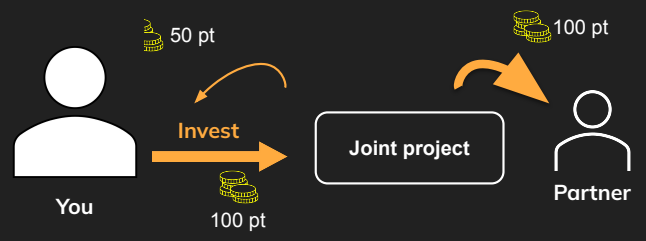
The first option is to **keep** your endowment to yourself.
The points you keep will be secured as your own payoff.



Instructions: 5

The second option is to **invest** your endowment in the group project.

If you invest, your endowment of 100 pt will be used to create 150 pt in joint property, 50 pt for you and 100 pt for your partner.



Instructions: 6

Importantly, **your partner is confronted with the same choice.**

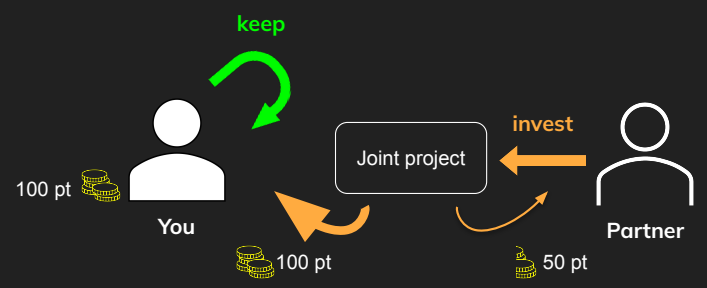
The points you and your partner earn are based on both of your decisions.

Instructions: 7

If you and your partner both choose to keep, both of you will earn 100 pt.

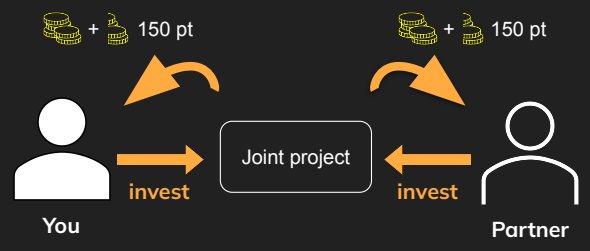
Instructions: 8

If you choose to keep, while your partner chooses to invest, you will earn 200 pt and your partner will earn 50 pt.



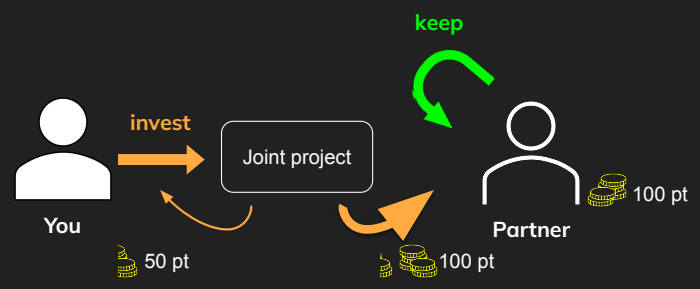
Instructions: 9

If you and your partner both choose to invest, both of you will earn 150 pt.
*) 50 pt from one's own investment, and 100 pt from the partner's investment.



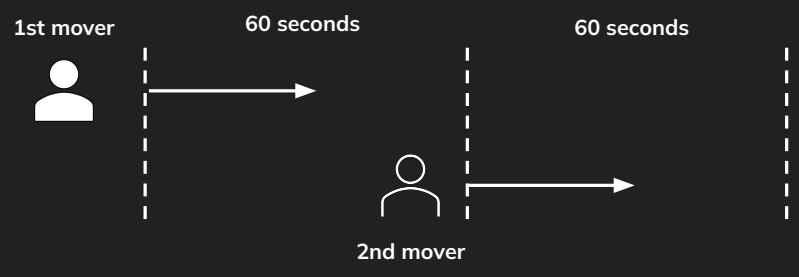
Instructions: 10

If you choose to invest, while your partner chooses to keep,
you will earn 50 pt and your partner will earn 200 pt.



Instructions: 11

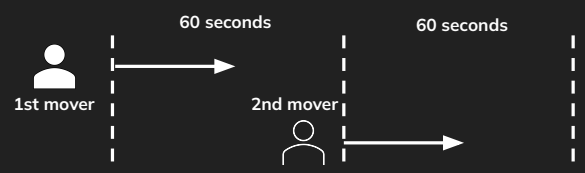
In this game, there are 1st and 2nd movers who both have 60 seconds to decide whether to keep or invest their endowments.



Instructions: 12

In this game, there are 1st and 2nd movers who both have 60 seconds to decide whether to keep or invest their endowments.

1) **The 1st mover gets to decide first whether to keep or invest. The 2nd mover then decides after seeing the 1st mover's decision.**
2) You will be notified whether you are assigned as the 1st mover or the 2nd mover after being paired with another participant.

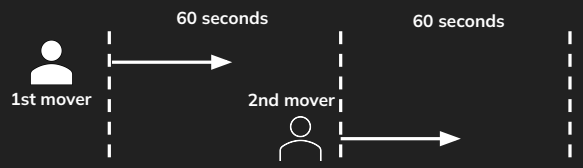


Instructions: **13**

In this game, there are 1st and 2nd movers who both have 60 seconds to decide whether to keep or invest their endowments.

3) Each player has 60 seconds to make their decision, but once a decision is made, it cannot be changed.

4) Even if a player decides before the 60 second time limit, their decision will not be revealed until the full 60 seconds have elapsed. If he/she does not make a decision within 60 seconds, he/she will be prompted to decide at the end of the time.



Instructions: **14**

This is the end of the instruction of the first part.
You can go back and read the previous slides again if you like.

If you feel confident, check the box next to *"I have read all the slides,"* and proceed to the next page by clicking on the appearing blue button.

On the next page, you will see the demonstration of the game.
